

Pikes Peak ARES Weather Advisory Update --AS REQUIRED-- (15 May – 31 August) -- Daily 1530 MST

Calling the Pikes Peak ARES SKYWARN Weather Advisory Update Net. This is [CALL-SIGN] Net Control with the Severe Weather Advisory Update for EL Paso and Teller Counties. . This net is held as required from May 15th through August 31st on the Pikes Peak FM Association 146.97 repeater. Should there be a repeater failure, the net will move to the Cheyenne Mountain Repeater Group 147.345 repeater. We will delay taking check-ins until after the briefing information has been read.

>>INSERT 1530 BRIEFING SHEET INFO HERE<<

Spotters are encouraged to monitor this repeater [as/should] severe thunderstorm conditions develop.

Are there any questions or comments?

Are there any stations wishing to check in?

(Acknowledge and record check-ins)

We wish to thank the Pikes Peak FM Association (or Cheyenne Mountain Repeater Group) for the use of this repeater.

This is [CALL-SIGN] closing the Pikes Peak ARES Weather Advisory Update Net at _____ Local . 73 .

(Record net time in minutes and the number of check-ins and report this info to K4ARM)
